

**Important Announcement to all members!!!
Please plan to attend!!!**

On Thursday April 14, 2011 at the BSS National Field Trial at the Clinton House Plantation in Clinton South Carolina the Boykin Spaniel Foundation will welcome Dr. Greg Keller, DVM, MS, DACVR, Director of the Orthopedic Foundation for Animals (OFA).

This is a significant opportunity for all of our members, owners and breeders to come to hear Dr. Keller speak on the orthopedic issues we face with our Boykin Spaniels. This is an educational experience for the laypersons as well as the experienced, for understanding and applying what we can all do to produce healthier and heartier Boykin Spaniels and to promote and insure the future of our breed.

Dr. Keller will speak to the membership in attendance at the BSS Nationals at 5:00 pm Thursday April 14, 2011. After his presentation we invite all to attend the Boykin Spaniel Foundation sponsored “Oyster Roast” and converse with Dr. Keller to share one on one discussions and questions.
